

## Product Specifications

### UltraPlex HI-7A Fluorescent Multiplex IHC Panel – Human CD4, CD8, FoxP3, Tbet

Description: UltraPlex fluorescent multiplex IHC kit to detect human CD4, CD8, FoxP3 and Tbet  
 Cat. No.: HI07A-005  
 Application: IHC-P. Multiplex fluorescent IHC staining of human FFPE tissue sections.  
 Product Overview: All components required to stain 5 multiplex slides plus a single negative control slide with a simple two step protocol.

1° Antibody	Clone	1° Tag	2° Antibody	2° Fluor	Absorbance (nm)	Emission (nm)	Filter Set Examples	ExCoeff (M-1cm-1)
CD8	EPR10640 (2)	UT015	Anti-UT015	CL-490	491	515	FITC/GFP	73,000
FoxP3	1054C	UT014	Anti-UT014	CL-550	550	575	Rhodamine/TRITC/Cy3	150,000
Tbet	EPR9302	UT021	Anti-UT021	CL-650	655	676	Cy5	250,000
CD4	EPR6855	UT019	Anti-UT019	CL-750	759	780	Cy7	240,000

Optimized for use on FFPE tissue sections.  
 Suitable for conventional imaging using defined filter sets.  
 Additional negative control (secondary reagents alone) are available, see NEG01A  
 Depending on your imaging scanner or microscope you may want to use Product HI07B with 490, 550, 594 and 650nm fluors instead.

Components: Vial 1: Antibody Diluent Solution  
 PBS, 1% BSA, 0.2% Tween 20, 15mM sodium azide  
 Vial 2: Protein Block Solution  
 PBS, 3% normal rabbit serum, 0.1% TritonX, 15mM sodium azide  
 Vials 3-6: Primary Antibody-Tag  
 Each 10ul at 0.5ug/ul in PBS, 15mM sodium azide, suggested dilution 1/100  
 Vials 7-10: Secondary Antibody-Fluor  
 Each 12ul at 0.5ug/ul in PBS, 15mM sodium azide, suggested dilution 1/100

Storage: 2-8°C

Shelf-Life: 6 months

Protocols: Download and use the following suggested protocols:

	Manual	Bond Rx
Antigen Retrieval	<a href="#">LINK</a>	<a href="#">LINK</a>
Staining	<a href="#">LINK</a>	<a href="#">LINK</a>

Notes:

Melanoma - stained manually with HI-7A UltraPlex panel: CD4 (purple), CD8 (green), FoxP3 (yellow) Tbet (red), 20X magnification.

Suggested Mounting Medium: Fluoroshield plus DAPI, ImmunoBioScience  
 DO NOT USE: Vectashield Mounting Reagent, Vector Labs
